## Work experience — 2 years 3 months

June 2021 — till  
now  
1 year 1 month

### KazAeroSpace

IT, System Integration, Internet

- Software Development

### Unity Developer

I developed rts - game, a VR shooter, a system in which you select a location on a topographic map and the terrain is automatically built, now I am developing a shooting range in which you shoot from a physical layout of a weapon and support the company's old projects like "holograms".

February 2020 —  
April 2020  
3 months

### Ministries House of Kazakhstan

### About me

Sautbekov Alikhan Ruslanuly born in 2000.11.18. I have a disability since the birth of the second group (no help is needed).

Good communication with people.

Knowledge of English at intermediate level. I graduated from JSC "Financial Academy" college. I made an independent project, a 2d metroidvania game inspired by Hollow Knight on unity + c#. And now I'm developing a project on the unreal engine inspired by Death Door.

Hard skills: git, .net c#, unity. Ubuntu at the user level. new I'm studing Unreal engine and C++.
